

Make Your Own Playdough

Ingredients

2 cups flour

3/4 cup salt

4 tsp cream of tartar

2 cups lukewarm water

2 tbsp vegetable oil

Food coloring

Step 1: Stir together flour, salt, and cream of tartar in a large pot. Next, add water and oil. If you're making one color, add the color now.

Step 2: Cook over medium heat, stirring constantly. Continue stirring until dough has thickened and begins to form a ball.

Step 3: If you're making multiple colors, divide dough into balls and add to quart sized bags. Add food coloring drops to desired brightness.

Challenge: Use your playdough to recreate a piece from the IMA Galleries. Tag us in a photo of yours @NewfieldsToday.
