

Art in Bloom

2021 TREASURE HUNT

Presented by Gary and Hannah Hirschberg

Welcome to the *Art in Bloom* Treasure Hunt! Follow these clues to see some of the most alluring blooms. With six (6) locations total, both inside the IMA Galleries and outside in The Garden, you're sure to find something spectacular. Happy hunting!

IMA Galleries

MEADOW FLOWERS

Amongst a canopy of blues and greens, you'll find an important message in between. Poppies and lace of a queen create a lush meadow and if you close your eyes, you can almost feel the sun a-glow.

PALM FROND, GERBERA DAISY, ANTHIRIUM

Come see the royalty and look in awe as flowers and fronds stand proud and tall. In the African Art galleries, you'll find where I stand with a special opportunity for you to lend a hand.

ORCHIDS

Just past the Angel you'll find me in a quiet corner, a bowl of elegance in front of the former. Greens, whites, and purples set me apart as I sit quietly amongst American Art.

The Garden

KALE

Tucked amongst the tulip leaves, you'll see these green yummys waiting to please. Waving hello from the house on the lawn, looking over at the river of bulbs babbling along.

ORANGE PANSIES

Bright orange faces peeping up to say hello, as the weather gets warmer, they will only continue to grow. In a place for everyone, no matter how big or small, these small flowers remind us that together, we can do it all.

ORCHIDS

Under the glass we are the stars of the show, come see our tropical blooms with a beer or lemonade in tow. Dripping from every corner, it is our time to shine, even if the rest of the gardens looks simply divine.
