

Welcome to your Art Adventure

at Newfields

#Hashtags for Art!

Great for young teens and anyone who has to put a # on it

Hashtags are keywords preceded with a hash symbol (#). Hashtags are used in social media posts to accommodate searches and by including the hash marks other people can find your post. You can use the same idea to explore the art galleries.

Instructions:

1. Explore a gallery and stand in the center.
2. From the center, have each person find their favorite artwork and think of 3 descriptive words (or hashtags).
3. Take turns sharing your words and have your group try to find the artwork each person is describing.
4. Ask the group what other hashtags they would use for the artworks.
